Sunday horse racing has been inaugurated at Chicago and the ministers of several churches are preaching against it. At one of the leading churches the pastor called for volunteers to attend the races for the purpose of securing evidence and one of the wicked secular papers of that city says that in response nearly every male member in the congregation stood up.

The disaster to that tow of logs belonging to the Cheboygan Lumber company was not so disastrous as was at first supposed. The tugs Pendell and R. C. Wilson went down to them Tuesday morning and succeeded in getting all but about 100,000 feet of them beamed again and the Pendell brought them up, landing them in the mill boom early yesterday morning. They expect to save every log.

Saturday evening a very refreshing shower fell. Sunday morning it was quite warm and sultry, with southerly wind. It was thirty years ago last Thursday since our well known fellow townsman Wm. Bartholomew first landed at Cheboygan. Thirty years have wrought a wonderful change in the place but Mr. Bartholomew had faith in the future of our town and stuck his stakes and concluded to abide by the future of the town and the result has proven that he did not overestimate the prospects.

Another appointment at Washington has been made as "sop" to the "Mugwumps" as a recognition of valuable services in the defeat of James G. Blaine and the election of Cleveland to the presidency. This time lightning struck Capt. H. F. Beecher, a son of Rev. Henry Ward, and the plum is the collectorship of Puget Sound district. The unterrified are not at all happy over the selection and do considerable growling, but then the mugwump element had to have some consideration for the valuable services rendered in the last campaign.

At the meeting last Thursday evening at the council room to consider the question of a celebration of the coming Fourth of July, a committee was appointed with power to appoint sub-committees to make arrangements. A canvass is being made for subscriptions and the committee is receiving considerable encouragement so that it is safe to say Cheboygan will celebrate. He came down to Dr. Perrin's office and had it dressed, but it will mar his beauty for several days.

Remember next Monday there will be a special election to submit to a vote of the people the question of appropriating \$7,000 for the extension of the water works to the east side of the river and also extending the mains further south on the west side. They piled up on the beach and none will be lost but it will take hard work to get them off. A force went down Tuesday morning to work at them.
